NWCB presents a mini-seminar: Sound-Control Construction in the Field

Come and learn how your material choices and field practices affect the STC rating of a sound partition or ceiling assembly. Get answers to the questions that pop up daily, including:

- How can you increase the STC value of a partition?
- What is the STC value of partition elements?
- When is caulking at the head of wall ineffective?
- Do gypsum board joints need to be sealed?
- How does an acoustical ceiling affect the STC rating of the partition?

The wall and ceiling industry performs work on a number of projects such as schools, condominiums, hospitals and federal government projects that require very stringent conformance to the principals of sound construction. A thorough understanding of what you can and can't do in the field is critical for the success of your projects.

This is a rare opportunity to learn from the area's top experts: **Michael R. Yantis, PE**, and **Basel H. Jurdy**, both principals at **Sparling Acoustical Design**. Michael and Basel specialize in, architectural acoustics and vibration, environmental noise assessments, and mechanical-system noise control, with design work spanning diverse market sectors such as health care, education, technology, municipal facilities, performing arts centers, mixed-use buildings, office environments and industrial facilities.

Sign up your key personnel to learn about this important part of our industry. **Estimators, project managers, field personnel, architects and building officials** will all benefit from the informative seminar. **Bring your burning questions!**

The seminar will be followed by the **NWCB chapter luncheon**, during which we will continue to address your questions about sound-control construction.

Please register for this event by Wednesday, **February 10**, either by calling (206) 524-4243, e-mailing rsvp@nwcb.org or faxing the registration form on the back to (206) 524-4136. Cancellations after 12:00 noon on Friday, February 12, and no-shows will be billed (substitute attendees welcome). Please advise NWCB of any special dietary needs.

Luncheon Quick Pitch:

Grabber Construction Products ~ Hydrotrim

**Nick Serfas, Acct. Representative
Supervisor**

Wednesday February 17, 2010

Seminar from 10:00 am to 11:30 am
Lunch from 11:30 am to 1:00 pm

Cost

Seminar & Lunch: \$65/person
(nonmember price \$85)

Lunch only: \$42/person
(nonmember price \$48)

NWCB members can be billed; all others to include payment.

Sheraton Bellevue Hotel

100 - 112th Avenue NE
Bellevue, WA
Phone: (425) 455-3330

How to get there
